

Taskr

Empowering your time and
well being,
One task at a time.

Kincaid Fries, Danny Kim, and
Brian Cuellar

Taskr

Executive Summary

Problem Domain

Our app addresses the challenge older adults face in finding reliable assistance for everyday tasks. Traditional platforms lack usability for seniors, hindering their independence. Our solution offers simplicity, accessibility, and trustworthiness, empowering older users to access the support they need.

Target User Characteristics

Our target users are the elderly or impaired, who may seek assistance with tasks like shopping and household chores. They may have limited mobility or cognitive decline, valuing reliability and personalized help from compassionate helpers who understand their needs.

Our Philosophy

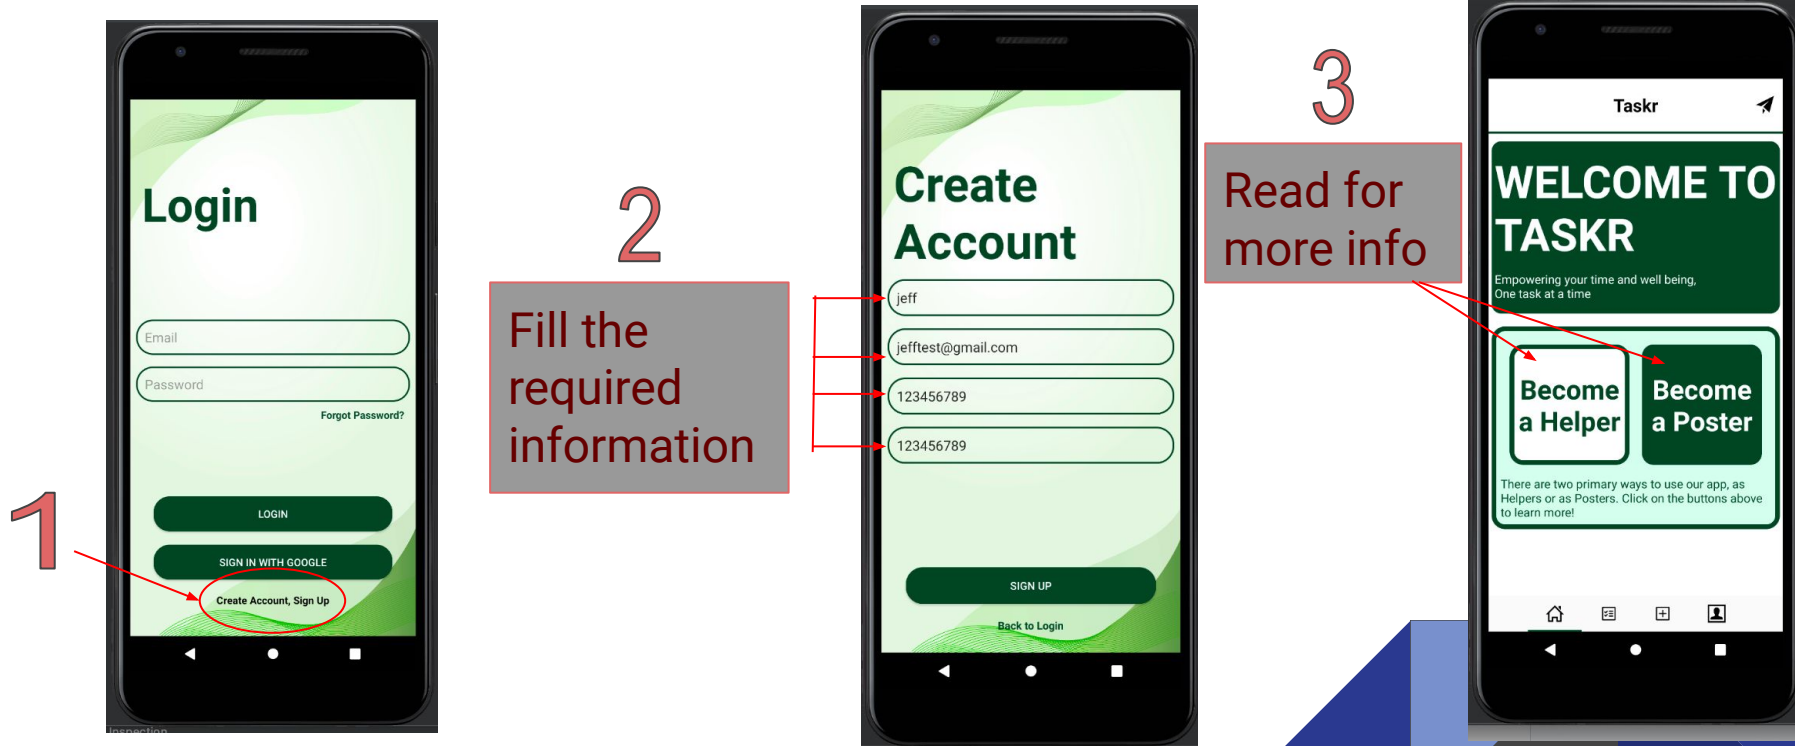

We prioritize simplicity and inclusivity in design, ensuring easy navigation and clear instructions.

I cant do this
anymore. If
only if there
was someone
that can mow
my lawn.

Activity: Logging in/Creating an Account

Activity: Posting a Task 1

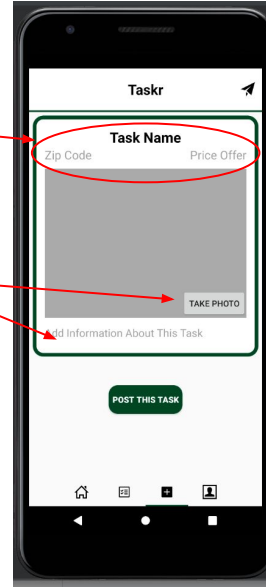

1

Navigate to
Post Task
screen

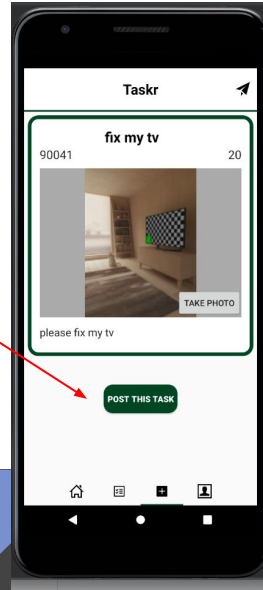

2

Enter the
required
information

3

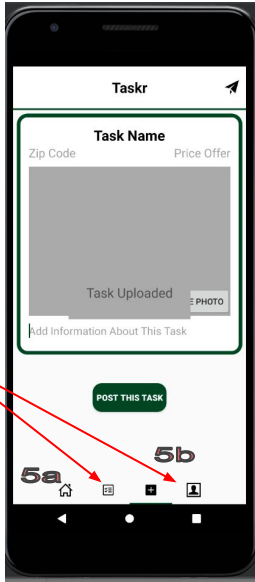

Post the
finished
Task

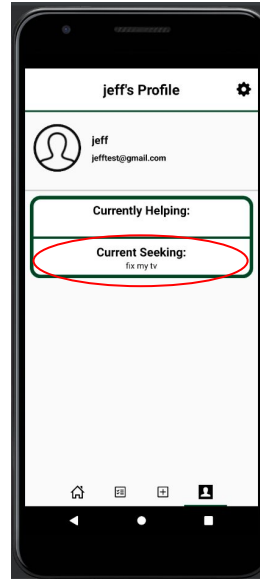

Activity: Posting a Task 2

4

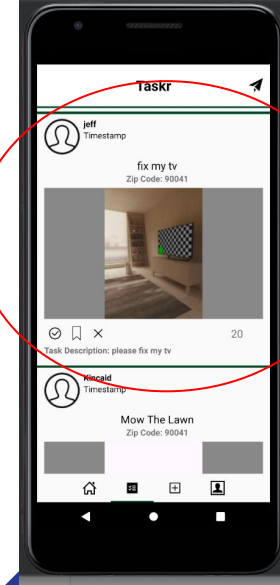

To check if
your task
has been
uploaded
