Picture Books

Research

Dr. Geffen's research is focused on building a database of picture books to test their efficacy when used in educational settings. Books are categorized according to various central themes, which can then be aligned with concepts being covered in the classroom and used as supplemental materials. This website serves as an accessible method of hosting and disseminating this database as a resource for other educators to draw upon.

To suggest edits, changes, or additions to the database, or for further discussion on this research, Dr. Geffen can be reached by email at sgeffen@oxy.edu.
